Offshore Electronics is set to add a large solar PV array to its 20,000 sq. ft manufacturing headquarters in St. Peter Port, Guernsey. Due to be fitted in early 2024, 96 high-efficiency panels will be added to the site"s roof, generating around 44,460kWh per year.

In addition to electrical contracting services, we also offer fire detection, solar installations, electric boiler replacements and electric heating solutions. By improving our best practices and streamlining our operations, we have established a clear, efficient and respected code of conduct among our employees.

Every solar panel we install, every watt of clean energy harnessed--it"s a step toward a zero carbon world. From our initial consultation to the final installation, every step of our process is guided by:

More commonly known as Solar PV, these panels are designed to produce clean, renewable electricity from the sun to power your home. It"s also possible to sell the electricity your system generates to Guernsey Electricity to supply the island with even more renewable electricity.

List of Channel Island solar panel installers - showing companies in Guernsey that undertake solar panel installation, including rooftop and standalone solar systems.

3 · In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited"s newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp). That"s enough electricity to supply power to approximately 35 homes.
