

1kw solar panel price in up Vietnam

The price of a solar system installation in Vietnam depends on several factors. Here's a breakdown of the key players: System Capacity: This refers to the amount of electricity your system can generate, measured in Kilowatt-peak (kWp).

Compare prices of different solar panel models and manufacturers. Consider the performance and warranty period to calculate the average cost per kWh generated. This will help you make decisions based on actual value.

For rooftop solar power systems that generate electricity and had meter readings in the period from July 1, 2019 to December 31, 2020: the Electricity purchase price (excluding value-added tax) in 2024 would be 1,999 VND/kWh, equivalent to 8.38 US cents/kWh.

A grid-tied solar power system helps households: Sell electricity to EVN at the price of UScent 8.38/kWh (at the current exchange rate of VND 1,940/kWh) within 20 years. With an investment for this system of about 13-16 million VND/1kWp (depending on the installation location and roof structure), the payback period only takes about 4-5 years.

On average, the installation cost for a household solar panel system is around 14,000,000 VND. This estimate is based on a monthly electricity usage of 2,000,000 VND, an installation area of 35m², and the use of 10 panels. The expected annual electricity output is 8,803 kWh. To estimate the installation cost for solar panels for your household ...

1/ For rooftop solar power projects operating before July 01, 2019 (with confirming meter readings), the 2023 buying price is 2,207 VND/kWh (equivalent to 9.35 US cents/kWh), excluding the value-added tax (VAT).

Vietnam's Ministry of Industry and Trade (MIOT) recently introduced new ceiling prices for solar and wind projects that sell electricity to Electricity of Vietnam (EVN). The ceiling price...

The government is proposing a tariff of VND671 (US\$0.024) per kWh for surplus power from the rooftop solar panels, with a proposed offtake volume of up to 10%. If approved, the price will...

Vietnam Electricity Group (EVN) has just announced the purchase price of electricity from rooftop solar power systems in 2024. Specifically, the electricity purchase price is as follows:

On January 7, 2023, the ministry set the ceiling prices at 1,184.90 VND (5.05 cents) per kWh for ground-mounted solar projects, 1,508.27 VND (6.43 cents) for floating solar projects, 1,587.12 VND ...
