

## 2 b energy holding netherlands Kenya

What is 2-B Energy?

2-B Energy will introduce and commercialize at a global level, an offshore wind power plant concept with significant lower Cost of Energy produced. The first demonstration turbine was installed in Eemshaven (NL) in Q4 2015. At 2-B Energy, we aim to have the members of our team inspired and integrated in the overall design process.

How many followers does 2B energy have?

2-B Energy | 980 followers on LinkedIn. Experts on wind turbines on floaters | 2-B Energy will introduce and commercialize at a global level, an offshore wind power plant concept with significant lower Cost of Energy produced. The first demonstration turbine was installed in Eemshaven (NL) in Q4 2015.

What is the high level design philosophy of 2B energy?

The higher level design philosophy by 2-B Energy team has been to balance basic design choices with specific high level design principles of improvement. The main goal: to realize aggressive life cycle Cost of Energy reduction and risk through integrated design approach between the power plant components where the wind turbine is a central part.

What is a 2-B team?

Therefore the 2-B team is a unique group where tradition is challenged and realization is a virtue. By introducing power plant components in design work, process ownership and plant awareness brings strength to both technology and the company.

What is a 2B6 wind turbine?

The 2B6 wind turbine is carefully designed and integrated in an overall plant view that reaches substantial Cost of Energy savings over plant life. The 2-B Power Plant is a TRUE OFFSHORE DESIGN, setting new standards and targets.

The company offers completely integrated towers and foundation designs that provide harmony in the hoisting process through rotor orientation methods to access wind turbines in the high sea, enabling clients to reduce the cost of power generation and also produce sustainable energy.
