In Malawi, the reduced cost of solar electricity is transforming lives by making power accessible even to low-income households. The World Bank's Malawi

ZASOLAR is an energy company, a champion of innovation for renewable and sustainable energy access for all in Malawi. Our mission is to enhance access to affordable renewable and sustainable energy in the last-mile and underserved communities through a distribution network that involves often excluded groups such as women and youth.

The reduced cost of solar electricity has made the package affordable, and customers have options. They can pay upfront for the Biolite package, at a cost of \$58 which is about \$10 lower than the market price of the product. Others also opt for monthly installments at a discounted price.

This report, Empowering Efficiency, Phase II: Refining an affordable Solar Home System with eCooking for rural Malawi, describes the results of a 1.5-year project (2023 - 2024) to make off-grid solar electric cooking systems (OGSECS) more affordable and accessible for some of the lowest income households in rural Malawi.

Specifically, the 2017 Malawi Renewable Energy Strategy (Government of Malawi, 2017a) defines the target that 45 % of the population (approximately 11.2 million people (United Nations, 2022)) will gain electricity access through purchasing household scale off-grid solar (OGS) devices by 2030, distributed through the private OGS market.

Our solar products are distributed through a network of twenty women-led village solar shops located throughout Malawi. In the last two years we have distributed: over two thousand solar light + cell phone charger systems, almost two thousand solar ...

Yellow, a leading supplier of Pay-As-You-Go solar home systems (SHS) in Malawi, connected a milestone 81,919 households to electricity as of June 2021. With an estimated average of five members per household, this enterprising company has been able to bring affordable, reliable and clean energy to nearly 410,000 people across the country.

The reduced cost of solar electricity has made the package affordable, and customers have options. They can pay upfront for the Biolite package, at a cost of \$58 which is about \$10 lower than the market price of ...
