

Antigua and Barbuda commercial solar panel sizes

As the name suggests, this scenario represents a 100% renewable energy power system but without considering green hydrogen production. This scenario was selected to show that there is a possibility to achieve the ambitious target set by the Government of Antigua and Barbuda with just solar and wind energy.

With state-of-the solar panels and innovative inverter technology, our team of experts is dedicated to providing tailored solutions that meet the unique needs of each client. We prioritize sustainability and environmental responsibility in every project we undertake.
