For off-grid solar systems, off-grid inverters don't have to match phase with the utility sine wave as opposed to grid-tie inverters. Electrical current flows from the solar panels through the solar ...

For off-grid solar systems, off-grid inverters don't have to match phase with the utility sine wave as opposed to grid-tie inverters. Electrical current flows from the solar panels through the solar charge controller and the battery bank before it is finally converted into AC by the off-grid inverter.
