

# Apower battery Guernsey

What is apower battery?

The aPower is a lithium-ion storage product, specifically, a lithium iron phosphate (LFP) battery. This is one of the most common lithium-ion battery technologies. For a good reason: LFP batteries are known for their high power rating and safety relative to other types of batteries.

What was the largest gun battery in the Channel Islands?

The battery was constructed from November 1941 and through the first half of 1942, and was the largest battery in the Channel Islands, the guns having a maximum range of 51 km. Although the guns were removed in the early 1950s, the reinforced concrete structures and associated positions remain intact.

Where is Batterie Mirus located?

The Batterie Mirus is located in Saint Peter and Saint Saviour, Guernsey. Originally called Batterie Nina, it comprised four 30.5 cm guns. The battery was constructed from November 1941 and through the first half of 1942, and was the largest battery in the Channel Islands, the guns having a maximum range of 51 km.

What is apower + agate?

As FranklinWH states, this Home Power Solution (the aPower + aGate) "interfaces between the grid, the loads, the generator, and the solar system," allowing you to more easily monitor and control the loads that your storage system is powering.

Does the apower battery come with a solar inverter?

The aPower battery comes with a built-in inverter, which can pair with any solar inverter on the market. Note: the inverter for the aPower is only for the battery and not a hybrid inverter to also be used for your solar panel system. Storage systems can also be either AC- or DC-coupled.
