

Our built-in Battery Management System (BMS) diligently oversees battery operations, sounding an alarm to prevent any out-of-limit scenarios. Experience the power with the ability to connect up to 8 APbatteries in parallel.

APsystems is the #1 global multi-platform MLPE solution provider, offering microinverter, energy storage and rapid shutdown devices for the solar PV industry. APsystems brands include APsmart and APstorage. Founded in Silicon Valley in 2010, APsystems encompasses 4 global business units serving customers in over 100 countries.

The system includes the ELS single-phase battery charger solution together with APsystems low voltage batteries, also compatible with an expanding list of LiFePO4 battery brands*, it becomes the ideal AC-coupled storage solution for residential PV applications.

APsystems next-generation AC-coupled smart Energy Storage Solution for residential. The system includes the ELS single-phase battery charger solution together with APsystems low voltage batteries, also compatible with an expanding list of LiFePO4 battery brands*, it becomes the ideal AC-coupled storage solution for residential PV applications.

APsystems next-generation AC-coupled smart Energy Storage Solution for residential. The system includes the ELS single-phase battery charger solution together with APsystems low voltage batteries, also compatible with an expanding list of LiFePO4 battery brands, it becomes the ideal AC-coupled storage solution for residential PV applications.

The APBATTERY 6.5kWh solar battery, crafted by APSYSTEMS, offers dependable storage capacity, capturing and storing excess solar energy efficiently. Its charge and discharge system ensures optimal utilization of solar power.

The low voltage LiFePO4 battery pack delivers 6.5kWh of energy and has a rated voltage of 51.2V. The built-in BMS monitors the status of the battery and provides an alarm to prevent exceeding the battery's maximum capacity of 128Ah.
