

Argentina bbu battery backup unit

Our backup batteries (BBU) use lithium batteries, which are about 70% smaller and 60% lighter than lead-acid batteries, which makes for easier installation in modern server racks.

3 kW Battery Backup Unit (BBU) 2U battery backup unit to support 3 kW capacity; High power efficiency (> 97%) Completed full certification of UL9540A; 15 kW Battery Backup System . 2U Power shelf system up to 15 kW capacity with 6pcs BBU modules; High power efficiency (> 97%) for cost-saving operation

Battery backup units (BBU) supply power to computers and peripherals for a limited time during mains power outages or brownouts. DC/DC battery backup units are critical for avoiding catastrophic data loss in data centers and allow safe shutdowns of factory automation processes during outages.
