

Aruba solar panels in prices

The money you save with your new solar panel installation is comparable to the monthly amount you pay to Mister Green. Your current financial situation does not change! The solar panel system is completely paid off within 3 to 4 years.

Solar power fosters autonomy by generating on-site electricity, reducing dependence on external power sources. Increased Property Value: Solar-equipped properties often command higher prices due to their long-term energy savings and market appeal.

We have installed over 10,000 solar panels in Aruba since Mister Green was founded in 2016. We are proud to be the only company in Aruba that is fully focused on our customers keeping these two things in mind: How can you start saving money as soon as possible? How can we make the transition to sustainable energy, as easy as possible?

Also on the 3 solutions page you can find basic information that will help you understand how a solar installation works. On our product page you can find some of the products we offer with their specifications. For a estimation of the total cost of a solar installation you can download our price list from the download page

Lowest Prices in Aruba. We understand that solar energy is more than sustainable energy. It's a great investment that's hard to beat, at the correct prices. By buying in wholesale quantities and streamlining our business processes, we can offer the absolute lowest prices on Aruba.

What does a solar panel system cost? Prices for solar panels have dropped significantly in the last couple of years. The average cost of a 10-panel system is about Afl. 9,500.00, including installment. The exact cost depends on your household requirements and the monthly payments you are prepared to make.
