

Bahamas cost of solar panels for home

The cost of solar is at the lowest it's ever been! Learn about the rebates and incentives that are making it a great time to invest in solar!

Green Revolution Ltd provides renewable solar energy solutions and energy efficiency advice to the Bahamas. We offer design, supply only, or supply and install service for new build and existing buildings/facilities. We specialize in the following solar products: hot water, pool pumps, pool heating and photovoltaic.

We've assembled a few cost indicators to help you budget for your next home in paradise. Whether it's a sprawling beachfront estate, a welcoming beachfront cottage or an in-island retreat, the below costs will help you navigate costs for your new build. Generic plans are available to purchase directly from the Bahamas Government website.

We evaluate your home or business's energy usage and utility rate to determine potential solar savings. With the initial evaluation we're able to determine payoff period and ROI. The solar systems we install typically have a payback between 4-7 years and a 18-20% return each year.

Whether your solar panels are for your home or commercial installation, and will be connected to the grid through net metering, or completely off the grid, employing local Bahamas solar panel installation experts will ensure your satisfaction and provide for quick follow-up and maintenance.

REASONS TO GO SOLAR. Reduce costs: Whether you're a homeowner or business owner electricity makes up a large part of your monthly bills. A solar system allows you to drastically reduce or eliminate this cost. Protect against rising energy costs: Electricity costs are on the rise. On average home electricity rates rise 3% per year.

A: A full solar system for a home is likely to cost no less than \$15,000.00. A solar system is a long term investment (25-30 years). In the Bahamas, your return on investment can be as high as 20% or more!.

We use the latest inverter technology and highest efficiency solar panels to give you the best return on investment possible and a system that will work for at least 25 years. Our figures show that you will multiply your investment during this time by ten!

Powerplus Bahamas is an industry-leading Solar and Alternative Energy Expert in The Bahamas. We only offer our customers the highest quality products and technologies available on the market - and for the best prices you'll find anywhere.

1. The average cost of solar panels in Nassau is approximately \$3.04 per watt, making a typical 6000 watt (6

Bahamas cost of solar panels for home

kW) solar system around \$12,778 after claiming the 30% federal solar tax credit available [1]. 2. A full solar system for a home in the Bahamas is likely to ...
