What is a Franklin battery system?

Franklin battery system integrates solar, grid, battery storage, and generator to maximize your solar ROI and improve energy efficiency.

Who is the largest lead-acid battery manufacturer in Bangladesh?

Rahimafrooz Batteries Ltd. (RBL) is the largest lead-acid battery manufacturer in Bangladesh. The company is one of the leading regional players, with market leadership at home and export endeavours to more than 44 countries around the world.

What kind of battery does Franklin home power use?

Franklin Home Power integrates solar, grid, battery storage, and generator. The aPower is a robust 13.6 kWh battery that can be expanded to 15 units per aGate, reaching a total storage capacity of 204 kWh. As an AC-coupled LFP battery, it features the safest battery chemistry in the industry to date and can connect directly to household loads.

How safe is the disposal of used batteries in Bangladesh?

Safe disposal of the used batteries in Bangladesh has been a big concern. Rahimafrooz has lobbied actively in getting a law formulated and enacted in this regard. RBL has ensured proper facilities and establishments for collecting (buying back) and breaking used batteries safely in an isolated location in Savar.

Why is it difficult to recycle lithium batteries in Bangladesh?

On the other hand, recycling lithium batteries is difficult; there are only a limited number of recycling factories worldwide, and we do not have such facilities here in Bangladesh. There are some other reasons as well. Lithium battery chargers are expensive.

Does franklinwh have a power 2 battery?

The company's new battery is an even bigger block than its predecessor. FranklinWH, which has been around since 2019, unveiled its aPower 2 battery this year at the trade show RE Plus. The aPower 2 includes upgrades in three big categories: energy storage capacity, power and warranty. You'll get 15 kWh of capacity and 10 kW of power output.

FranklinWH solution is an open and robust home energy ecosystem that integrates solar, battery, grid, generator and EV power sources, providing power backup during outages, peak periods, or even when you want to be off-grid 24/7.

TBS: We have visited two of Rahimafrooz's three battery factories, where we have seen the lead recycling facilities equipped with ATPs and ETPs. But what about the numerous lead smelting factories that have no regard for environmental protection or ...
