Maxeon is the only solar manufacturer that offers a comprehensive 40 year warranty on their panels, inclusive of all shipping and labor costs. Our Maxeon solar systems have proven to last longer than any other in Bermuda's harsh climate, giving you ...

BE Solar offers the best in solar electricity systems for Bermuda's harsh climate. We carry modular, completely interated systems that are designed to expand with your growing needs or repair and replace over time.

The electrical output of the solar system mostly depends on the installed capacity and the efficiency of the module used. The most commonly used types of solar modules are the Polycrystalline silicon and Monocrystalline silicon. The cost of installing a kilowatt in Bermuda is around \$4,000 to \$6,000.

These 10 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

BE Solar carries the best in sustainable energy solution products including solar panels, batteries and ev chargers. Check out our product line and let us help you design the perfect system to suit your needs.

In a nutshell, most solar powered homes sell their excess energy back to BELCO via a set rate called the "Feed in Tariff". Of course, solar energy is produced during the day so when electricity is needed to power a house at night, or on cloudy days, solar homeowners must buy it like everyone else.

Power up your Bermudian paradise with BE Solar: Bermuda's leading energy solutions provider, empowers you to embrace clean, sustainable power. We expertly design, sell, and install premium solar panels, reliable batteries, and cutting-edge EV ...
