

# Bosal storage systems Bahrain

What does bosal do?

BOSAL is committed to driving innovation in global mobility and energy by developing and manufacturing technological solutions with agility through its four market segments: Powertrain, Chassis, Energy, and Packaging Solutions. The BOSAL Group plays a major role in shaping a cleaner future.

Where is bosal based?

BOSAL serves its customers with a global manufacturing footprint, stretching from South Africa to Russia, from Brazil to China, and from Europe to North America. BOSAL's global presence of owned R&D centres is complemented with a worldwide network of industry partners, as well as research and educational institutions.

Who is bosal energy?

With over 20 years of expertise in the development, testing, and production of advanced heat exchangers, BOSAL Energy offers customized solutions for the evolving hydrogen economy. Our energy conversion systems are engineered for high-temperature and high-pressure environments.

What makes bosal group a great company?

The BOSAL Group plays a major role in shaping a cleaner future. From automotive to energy solutions, our products are recognised and valued by our customers worldwide. It's a fact we're immensely proud of. Our constant (and successful) journey to make agility our strength is something we're proud of too.

What makes bosal unique?

BOSAL's global presence of owned R&D centres is complemented with a worldwide network of industry partners, as well as research and educational institutions. Manufacturing and distribution centres are strategically positioned to cover the footprint of BOSAL's global Original Equipment Manufacturer (OEM), aftermarket, and energy customers.

How does bosal contribute to a cleaner world?

Family-owned BOSAL, with 2,500 employees worldwide, contributes to a cleaner world by consistently innovating in mobility and energy. BOSAL proudly offers tailored solutions to meet the challenges of the hydrogen economy with 20 years of experience in the development, testing, and production of highly effective heat exchangers.

Bosal is a leading manufacturer of exhaust systems, tow bars and catalysts for the automotive sector. Bosal originally designed their warehouse racking systems for helping its customers, the car parts wholesalers,

Bosal bicycle carriers. Bosal offers 2 new bicycle carriers in different designs for two up to three bicycles. With a maximum load of 60 kg\*, the bicycle carriers are suitable for transporting up to two e-bicycles. They
