

Bouvet Island sun command solar panels

The Sun Command solar panel system is an efficient collector of the free energy available from the sun. The panels are mounted onto the house roof, or a suitable structure, and clean filtered water is passed through the panels during the daytime, by means of your existing pool pump. The water passing through the panels collects the irradiated heat

Sun command has been a leading manufacturer of solar panels in south Africa for the last 15 years. Our uv-stabilised polypropylene panels carry a full 5-year warranty. We currently export thousands of panels annually to Austria, Czech republic, Spain, Sweden, canary islands, UAE, Denmark, Netherlands and sub-sahara Africa.
