The Story of Sea, Sun, Surf and Sand. The archipelago of the British Virgin Islands has enjoyed a lengthy renown as being one of the most beautiful collections of isles and cays anywhere in the world. Each of the more than 60 separate landfalls nestled among the surrounding deep blue Caribbean waters has its own distinct texture and character ...

“When I look around here today, I see the Virgin Islands getting out of the river when it comes to energy problems.” Under the Water and Power Authority's interconnection agreement, WAPA will buy power generated by the solar farm at nearly 11 cents per kilowatt-hour and excess energy stored in the site's batteries will be sold to the ...

Work has begun on Anegada's Hybrid Renewable Energy & Battery Storage System in the British Virgin Islands (BVI), which, upon completion in November of this year, would harness solar energy to power the island of Anegada. Power52, an American solar energy firm, will manage the project for \$4,687,944.72.

The British Virgin Islands Electricity Corporation (BVIEC) and Power52 executed the contract for the Anegada Hybrid Renewable Energy & Battery Storage System (BESS) Project in November 2021 in the sum of \$4,687,944.72. "The long-term goal is for us to get to around 70 to 80 percent renewable energy across the Virgin Islands.
