CMC Europe and Solarpro will act as joint EPC contractors for the St. George project and Green Solar Energy will handle the high-voltage work connecting the site to Bulgaria's transmission grid.

The 165-hectare, 229 MW installed capacity plant, acquired from YGY Industries JSC, will be situated in Silistra Municipality in north-eastern Bulgaria; Named "St. George", the plant is expected to be online in early 2025; its installed capacity will be equivalent to 13% of Bulgaria's current solar energy production

By Alastair Hammond, CEO, Rezolv Energy*. In Bulgaria, electricity production is still heavily dependent on fossil fuels - particularly brown coal, or lignite, which makes up more than 85% of the fossil fuel total.

Actis-backed Rezolv Energy has selected three companies - CMC Europe, Solarpro and Green Solar Energy - to build the 229MW "St. George" solar park in Silistra Municipality in Northeastern Bulgaria. Construction work is due to start very shortly, with the plant coming onstream next year.

Rezolv Energy, a company of UK-based investment firm Actis, has acquired a 229 MW ready-to-build solar project near the city of Silistra, northeastern Bulgaria. The project was acquired from YGY Industries, owned by Yavor Georgiev.

Alastair explains how Rezolv Energy's wind and solar power projects in Romania and Bulgaria are cost-competitive, bring energy security and create real ambition for renewables, with the...

Rezolv Energy's chief operating officer, Alistair Hammond, points out that forecasts indicate a staggering 6 GW of solar energy generation by 2030. Moreover, during its construction phase, the project is set to create a substantial number of job opportunities, employing around 500 full-time workers, as stated by the company.

Bulgaria hammond energy

Solar will make up almost 13% of Bulgaria's total installed capacity this year, and estimates suggest that close to 6GW of solar power will be generated by 2030, Rezolv's Chief Operating Officer Alastair Hammond said. The company pointed out that it takes wind, solar power and energy storage projects in late stage of development.

We are a highly experienced, independent renewable energy producer providing clean power at a long-term, stable price for industrial and commercial users across Central and South Eastern Europe. Our business is built on a heritage of 15 years in clean energy and our senior team has decades of experience in the sector.

Among investors bringing renewable energy production to Bulgaria are Rezolv Energy, a Czech-based company, and Energy, an Austrian one. Rezolv's 229MW St George solar project will become one of Bulgaria's largest solar plants.
