## Can i add batteries to my solar system Antigua and Barbuda

Benefit from the most advanced and innovative solar energy powered energy storage systems by ACT. We can help you set up, support, and maintain sustainable Energy Storage Battery Systems for your residential, commercial or utility facilities.

This project, funded by the UAE-Caribbean Renewable Energy Fund, features solar panels and a battery storage system designed to withstand strong winds and power the island during daylight hours. The Antigua and Barbuda government is also supporting the adoption of solar power by residents and businesses.

These systems allow homeowners to generate their own electricity using solar panels and store the excess energy in batteries for later use. This not only reduces reliance on traditional power grids but also helps to lower electricity bills and decrease carbon emissions. Click to find more about home solar system with battery storage.
