

Canada ecosmart energy systems

What is the EcoSmart Foundation?

The EcoSmart Foundation is a not-for-profit Canadian corporation based in Metro Vancouver, BC, Canada - in the traditional territory of the Coast Salish People. Our mission is to advance innovative technologies and practices that are eco logically and eco nomically smart.

What is Canada doing to clean electricity?

October 10, 2024 Toronto, Ontario Natural Resources Canada The Government of Canada is supporting Canadian utilities and system operators that are working to clean their electricity, integrate clean solutions such as utility storage systems and micro grids, and meet the demands of increased electrification at the least cost to rate payers.

What makes Canada a great energy supplier?

We're also a Tier 1 nuclear nation and a recognized leader in hydrogen and fuel-cell technologies, while wind and solar energy are the fastest-growing sources of electricity in Canada. In short, energy is part of our national DNA. We have what it takes to be a supplier of choice as global demand for clean electricity grows exponentially.

How can Canada build a clean and affordable electricity system?

The Government of Canada is proposing to use all the tools at its disposal to support and collaborate with provinces and territories to build clean, affordable, and reliable electricity systems. These efforts can be grouped into four categories: convening and coordination; investment; regulation; and targeted policy. 1. Convening and Coordination

Who is EcoSmart governed by?

EcoSmart is governed by a board of directors, made up of volunteer members from across the country, who represent research, government, and the private sector.

How can Canada promote a net-zero electricity grid?

Sector-specific strategies that assist in the promotion of a net-zero electricity grid include Canada's SMR Action Plan, the Hydrogen Strategy for Canada, and Canada's Critical Minerals Strategy. Electricity systems across Canada face different circumstances and opportunities.
