

Cascadia 4x4 hood solar panel Western Sahara

Cascadia 4x4 offers solar solutions fit specifically for 29 popular off-road and overland vehicles with more in the pipeline. They can deliver 65W-135W of rated power, depending...

Cascadia 4x4 is an innovator of parts for off-road vehicles. We invented the world's first vehicle hood solar panel/module in 2018 (VSS System). We provide this offering for Toyota, Jeep, Ford, Ram, Nissan, and Mercedes to name a few. Winch equipped vehicles will benefit from our Flipster winch license plate mount.

The Cascadia 4x4 VSS System(TM) 2.0 is the latest iteration of the world's first vehicle specific hood solar system, and it's packed with new technology. The solar module attaches directly to the vehicle bodywork using Cascadia 4x4's SolarClasp(TM) Technology, enabling it to be removable, and creating an insulative air-pocket for cooling.

Cascadia 4x4 Hood Solar Panel Construction The 8-layer laminate construction includes both fiberglass and high-tech polymers that give you a marine-grade panel with long-lasting durability. You can see the panel in the image above (during install, thus the blue painter's tape I used to help me center the panel).

Introducing the Cascadia 4x4 VSS System(TM) for the Toyota Rav4 (2019+), the world's first vehicle specific hood-mounted solar panel system. The Cascadia 4x4 VSS System(TM) hard-mounts to the hood of your Toyota Rav4 (2019+) and, during daylight hours, provides a constant flow of clean solar energy to your primary or second

The Cascadia 4x4 VSS System(TM) is the world's first, and highest quality hood mounted solar option for passenger vehicles. Our solar panel systems are in use around the world and offer unparalleled performance and longevity in harsh environmental conditions.

Cascadia 4x4 VSS Solar Panel Kits feature panels made from rugged, multi-layer, marine-grade materials to withstand extreme environmental conditions and remain maintenance-free for years. They follow the contours of the vehicle hood for a seamless factory-like appearance. 3M neoprene foam and high-temperature VHB tape secure the panels without ...
