

Croatia alibaba solar panels price

I found vendors through Alibaba. Then contacted them. Ended up buying some panels from a manufacture that has a warehouse in California. Originally 3 pallets was their minimum. I eventually got them to agree to just one pallet. Delivery was a few weeks and around \$1000. You can do a local pick up.

Over in the DIY LiFePO4 battery Forum, many members are purchasing discounted battery cells from China through Alibaba or AliExpress. I need 6 panels for my 2021 solar build and am trying to understand whether buying at a discount from China is a viable option. Are there any threads about members purchasing solar panels from China?

What currently costs 35,000 kuna will then cost 26,250 kuna to buy and have installed. People's pockets are far more shallow than the once were, and with inflation continuing to bite and prices continuing to spiral, it's likely that there will be more and more interest for solar panels as time goes on.

Price trend for solar modules by month from December 2023 to December 2024 per category (the prices shown reflect the average offer prices for duty paid goods on the European spot market):
