

DR Congo titan advanced energy solutions

What is Titan advanced energy solutions?

Titan Advanced Energy Solutions delivers industrial quality and analytics solutions to battery manufacturers. Titan's platform, IonSight, leverages proprietary ultrasound technology to generate a real-time stream of never-before-seen cell morphology data, resulting in novel insights about battery cell properties and process parameters.

Who is Titan's head of operations and communications?

Since 2019, Flavia has been Titan's Head of Operations and Communications, working side-by-side with the company's founders to craft the Titan story and value proposition, enable business operations, own company-wide communication, and ensure organizational health.

What is Titan & how does it work?

Titan was founded by two technology pioneers who engineered a breakthrough technology by applying the proven science of ultrasound to lithium-ion batteries. Our mission is to provide intelligence on any battery's state of health, state of charge and safety profile -- at any stage of its life and in real time.

NURU is a highly-scalable and resilient business with excellent visibility on growth, thanks to 43.2 MW of actionable, advanced pipeline across the region. NURU's mission is to deliver reliable, ...

Congo Energy Solutions Ltd (CESL/Nuru) banks on \$10m from the IFC for hybrid mini grids The Mauritian-registered holding run by Jonathan Shaw hopes to tie up a ...

Titan Advanced Energy Solutions ("Titan"), a pioneer in ultrasound-based battery management solutions, announced a \$33 million Series B financing led by HG Ventures, the corporate investment arm of The Heritage Group. This new ...

Titan develops and deploys revolutionary, ultrasound-based technologies to diagnose and actively manage lithium-ion batteries in battery factories, electric vehicles, laptops, phones, energy storage systems and battery recycling.
