

# Domestic solar container battery cell shipment ranking table

Who makes the most energy storage cell shipments non-China?

The top three manufacturers in energy storage cell shipments non-China markets were CATL, BYD, and CALB. At present, most non-China cell shipments from Chinese-funded manufacturers are achieved through the commissioning of non-China energy storage projects by leading Chinese system integrators.

What are the key trends in energy storage cell shipments?

CATL and Hithium ranked as the top two in global energy storage cell shipments. Key market themes include (1) full capacity and full sales; (2) tiered differentiation; (3) emerging players; and (4) capacity buildup. \*InfoLink strives for information comprehensiveness, but manufacturers' official data shall prevail in case of any discrepancies.

When will South Korean energy storage cells return to the top ten?

However, as U.S. energy storage cell capacity from companies such as LGES is gradually released in 2H25 and multiple large-scale projects enter the delivery phase, South Korean manufacturers are expected to return to the top ten by the end of 2025 or in 1H26. In 1H25, global utility-scale storage cell shipments reached 218.57 GWh, up 110.15% YoY.

Are energy storage battery cells growing?

According to SMM statistics, global shipments of energy storage battery cells saw significant year-on-year growth, reaching 334 GWh for the year. Among these, lithium iron phosphate (LFP) energy storage battery cells accounted for 317 GWh.

Which storage cell manufacturers are leading the global market in 1H25?

In 1H25, global utility-scale storage cell shipments reached 218.57 GWh, up 110.15% YoY. In the utility-scale segment, CATL and Hithium ranked as the top two, but the gap between the second- to fifth-ranked manufacturers remains narrow.

What happened to China's Top 5 solar cell suppliers in 2024?

InfoLink Consulting has reported over a 10% YoY drop in total cell shipments of the world's top 5 suppliers, all Chinese. (Photo Credit: TaiyangNews) The combined shipments of the top 5 solar cell suppliers in 2024 reached 162.8 GW, according to InfoLink Consulting, representing a decline of about 10.7% compared with 2023.

A mobile solar container is simply a portable, self-contained solar power system built inside a standard shipping container. These types of ...

In the first half of 2025, the top five solar cell manufacturers shipped a combined 87.8 GW, with the most

# Domestic solar container battery cell shipment ranking table

popular TOPCon technology dominating at 88.3% of total shipments, followed by ...

When you're looking for the latest and most efficient Domestic energy storage battery shipment ranking for your PV project, our website offers a comprehensive selection of cutting-edge products designed ...

The world shipped 38.82 GWh of energy-storage cells in the first quarter this year, with utility-scale and C& I projects accounting for 34.75 GWh ...

InfoLink has released its global energy storage system (ESS) shipment ranking for 1Q25-3Q25, based on its energy storage supply chain database. In the first three quarters of 2025, global ...

It is worth noting that CATL, BYD and Haichen Energy Storage are all leading companies in energy storage cells, and CATL and BYD are the first and third in global energy storage ...

Share of domestic shipment increases In 2021, nearly 70% of shipments of Chinese module makers in the ranking were overseas shipments. In 2022, 50-55% of shipments of Chinese ...

EVE Energy, a leading global lithium-ion battery company, has sprinted to second place in the 1Q24 Energy-storage cell shipment ranking recently released by InfoLink Consulting.

With its large-scale mass production capacity and outstanding annual shipment performance, CORNEX ranked second in the sub-list of the ...

In 2024, the global energy storage market continued its rapid growth, bolstered by policy support and increasing market demand. According to ...

The rankings are based on shipment data from InfoLink's Energy Storage Supply Chain Database. In Q1 2025, China's market showed steady growth, the U.S. ...

Shipment rankings of energy storage cell in 1H-2025 With the expansion of variable energy sources such as wind and solar power, interest in and demand for energy storage systems is growing every day.

The rankings of each company have undergone significant changes compared to the top ten energy storage battery shipment volumes in 2022, reflecting the dynamic nature ...

Top 10 energy storage battery cell Chinese manufacturers of energy storage batteries lead the world in shipments, and CATL ranks first in the world in shipments. According to estimates, the global energy ...

In 2022, MOKOEnergy's cumulative energy storage BMS shipments exceeded 10 GWh, with more than 500 projects, ranking second in third-party BMS shipments. MOKOEnergy's battery management ...

# Domestic solar container battery cell shipment ranking table

According to InfoLink's Global Energy Storage Supply Chain Database, global energy storage cell shipments totaled 314.7 GWh in 2024, up 60% YoY. The market showed a trend of early ...

Walburga Hemetsberger, CEO of SolarPower Europe said, "As the popularity of residential solar increases, more households are realising that domestic storage systems will maximize the value of ...

In 2022, Tongwei, Aiko Solar, and Runergy still maintained the top three leading positions in global cell shipment rankings, according to InfoLink.

Energy storage system shipment ranking Top 10 global energy storage battery cells by total shipment volume1. CATL Click here Energy storage cell shipments: &gt;45GWh . 2. BYD Click here Energy ...

Cell shipment ranking: Tongwei retains lead, Solar Space ... As for n-type cells, manufacturers began shipment of 183mm and 191mm cells in the second half of 2023.

InfoLink Consulting has released its 1Q25 global energy storage system (ESS) shipment ranking, based on its energy storage supply chain database.

PREV Shipment ranking 3Q23: Global energy-storage cell shipments hit 143.8 GWh, CATL leads the pack  
Global battery shipment ranking 1Q23: CATL retains top spot NEXT Back

The shipment volumes, rankings, and related information presented in this article are based on data verification through regular interviews with upstream and downstream industry players.

Finland placed the highest in Europe and was ranked fourth in the overall rankings. The country's growing battery metals supply chain, ...

In 2024, BYD ranked fourth globally in energy storage battery shipments. The company not only performed strongly in the domestic market but ...
