Will Venezuela become Latin America's third-largest gas producer?

Venezuela is projected to become Latin America's third-largest producer in the next five years. According to energy analyst Infield Systems, three gas developments are expected to begin production by 2016. The following is an overview of the developments offshore Venezuela, French Guiana, and Guyana.

What type of electricity is produced in Venezuela?

Electricity in Venezuela is predominantly produced from hydroelectricity. Venezuela ranked 11th in the world for oil production in 2016; production has since fallen steeply. The largest oil company is Petróleos de Venezuela (PDVSA). Oil fields in the country include Bolívar Coastal Field, Boscon Field, Maracaibo Basin and Orinoco Belt.

Is biomass a source of electricity in Venezuela?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Venezuela: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Will Gazprom develop the Robalo gas field in the Gulf of Venezuela?

In October, Gazprom signed a memorandum of understanding with PDVSA which could lead to a joint venture to develop the Robalo gas field in the Gulf of Venezuela. Under the MOU, PDVSA will supply Gazprom with proposals on the co-operation terms and conditions as well as geological data for the project.

What is the largest oil company in Venezuela?

The largest oil company is Petróleos de Venezuela (PDVSA). Oil fields in the country include Bolívar Coastal Field, Boscon Field, Maracaibo Basin and Orinoco Belt. Hydro power provided 74% of domestic electricity in 2008. Venezuela produced 87 TWh hydro power in 2008, 2.6% of the world total.

Where is Venezuela's first offshore gas development located?

PDVSA has contracted Technip to provide EPC management of Venezuela's first offshore gas development. The Mariscal Sucre Dragon and Patao fields which will supply the gas are 25 mi (40 km) north of the Paria peninsula, off the country's northeast coast.

Venezuela: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

GOAL: to promote an understanding, on a global scale, of the dynamics of change in energy systems, quantify emissions and their impacts, and accelerate the transition to carbon-neutral, environmentally benign energy systems while providing affordable energy to all.

CGX Energy's Eagle-1 well failed to find commercial hydrocarbons. The well was drilled on the Corentyne Petroleum prospecting license. The well reached TD of 4,328 m (14,200 ft) in the upper Cretaceous Maastrichtian geologic zone on an 8'-in. diameter hole, using synthetic oil-based mud drilling fluid.

Eagle Energy Systems LTD General Information Description. Developer of video-data integration and analytic solutions for businesses. Eagle Tech Systems offers customized systems management to improve efficiency, productivity, marketing, security, and operations.
