

Ekotek solar panels Switzerland

We focus on offering reliable and cost-effective solar products designed to improve the lives of people who do not have access to the electric grid. Our products have been carefully designed to provide clean, safe, and affordable solar energy, removing the ...

Peak Performance: The Ekotek 550W Solar Panel suitable for advanced solar energy systems. **Wide-Ranging Use:** This panel's substantial size and wattage are ideal for large residential, commercial, or utility-scale installations, providing efficient ...

SWISS SOLAR AG manufactures high-quality solar modules and is leading and globally active technology company. SWISS solar modules are engineered in Switzerland and meet the highest quality standards .

In order to transform this DC power into AC power, it is necessary to have a solar power inverter connected to your solar panels. This inverter allows the energy generated to be consumed, fed back into the grid - depending on what type of solar energy generating unit you have.

To maximize your solar PV system's energy output in Kriens, Switzerland (Lat/Long 47.0286, 8.2866) throughout the year, you should tilt your panels at an angle of 40°; South for fixed panel installations.

Looking for top-quality solar power equipment at the best prices? Look no further! We offer a comprehensive range of solar products including PV modules, cables, inverters, and accessories to meet all your renewable energy needs.

We carry out installation of solar power plants for over 14 years. We employ only certified and highly qualified specialists. We provide free service for the first year!

Transform your energy consumption with our diverse selection of solar panels, providing an eco-friendly and cost-efficient way to power homes, devices, and adventures. Solar panels harness sunlight to generate electricity, making them an attractive option for environmentally conscious consumers and tech enthusiasts alike.
