What is civil defense in Mongolia?

The Law on the Civil Defense of Mongolia, adopted by the State Great Hural in 1994, stated that "civil defense is a complex of measures aimed at the prevention, protection and rescue of the population and their property from afflictions caused by mass destruction weapons";

When was the first civil defense established in Mongolia?

The first civil defense in the country was established in 1964 as an affiliated service to the Mongolian People's Army. Emergency services in the country have dated back to 1922 when they were first formed at the initiative of the partisan leader Damdin Sükhbaatar.

How many civil defense units are there in Mongolia?

The unit established in the 1960s was known as the 122nd Civil Defense Battalion of the MPA as part of the expansion of the army. All citizens were obliged to participate in civil defense training organized by the Civil Defense Office of the Ministry of Defense. In 1982, there were 600 civil defense units in Mongolia.
