

Empo ni off grid solutions Brunei

EMPO-NI off-grid solutions was founded in 2008 in Düsseldorf and is specialized in the development construction and production of Solar Direct Drives and battery charge controllers ...

In cooperation with Moerk Water, EMPO-NI has developed the drive of this system, which is now operated exclusively with Solar Energie and does not require a battery. This plant produces up to 100 litres per hour of safe, clean, drinkable water from salty sea water.

In cooperation with Moerk Water, EMPO-NI has developed the drive of this system, which is now operated exclusively with Solar Energie and does not require a battery. This plant produces up ...

EMPO-NI develops standard and customized off-grid solutions. Our experienced engineering team has large expertise in power electronics, control techniques, DSP FPGA and software engineering as well as analogue and digital circuitry using latest CAD, simulation and rapid prototyping toolchains.

EMPO-NI Off-Grid Solutions is an innovative German company that develops and produces in Germany as well as solar direct drives for irrigation, water supply,

Dear friends, we have revised our website and present it now in a new look: clearer, more understandable for the application possibilities for our products and more ...

Empo-ni develops equipment for standard off-grid applications as well as custom designs. Our engineering team creates mathematical models, programs microcontroller and develops digital, analogue and power electronics circuits.

EMPO-NI's family of Solar Direct Drives "SDD" are passively cooled robust "stand alone" PV-solar powered motor drive solutions with Maximum Power Point Tracking and IP54(65) protection degree. They provide a rapidly paying-off substitute for ...
