

Energy solutions technologies Fiji

Who is energy Fiji Limited?

Energy Fiji Limited, previously the Fiji Electricity Authority, was established, incorporated and constituted under the provisions of the Electricity Act of 1966 and began operating from 1 August of that year.

Why should you choose Ves solar energy in Fiji?

VES employs the most experienced renewable energy experts in Fiji. Our team will recommend a solution to best meet your unique situation. In an effort to modernize the solar energy infrastructure in Fiji, our team has established strong partnerships with the most advanced technology manufacturers worldwide.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

By incorporating hydrogen technology, Fiji is enhancing its energy security and diversifying fuel sources, which helps decrease reliance on imported fuels. This shift not only saves costs but strengthens Fiji's energy independence amid a volatile global energy market.

VES is the renewable energy division of Vision Investments Limited of Fiji. We pride ourselves on excellent customer service while delivering comprehensive energy solutions to diverse clients. Our systems are designed to generate electricity sustainably for years.
