

Enlight energy services Iceland

What is Enlight?

Enlight is a company that accelerates the energy transition in the race to net zero and offers advanced renewable energy solutions.

What is Enlight & how does it work?

Enlight describes itself as a vertical integration company, capable of operating in all four areas of the energy production chain so as to reduce licensing timeframes and generate higher returns on investments.

Who is Enlight's CEO?

Gilad Yavetz, CEO of Enlight: "We are happy to announce the grid connection and commencement of commercial operations at our fifth project in Hungary. The continued development and operation of new European projects such as Tapolca is another example of Enlight's broad international execution capabilities on a number of different continents.

Overview Operations Business model Corporate history See also External links
Enlight Renewable Energy operates in the renewable energy industry as a developer and operator of solar and wind power facilities. It owns rights to photovoltaic facilities in Israel and Italy. In November 2010 Enlight signed agreements with two Italian companies for the establishment of Italy-based SPVs to lead the development of solar energy farms and rooftop solar energy projects in Italy.

The company is growing rapidly thanks to diversified activity in the core areas of renewable energy around the world: solar energy, wind energy and energy storage. We have a proven track record of bringing projects from greenfield development into commercial operation with market-leading returns.

The breakdown of revenue sources is as follows: Product/Service Q4 2023 Revenue (\$ million) Year-over-Year Growth (%) Solar Project Development 220 40 Asset Management Services 60 25 Consulting Services 30 20 Moreover, Enlight announced plans to expand its operations into new geographic markets, projecting an additional 200 MW of capacity by the end of 2024.
