Who is EOS Energy Enterprises?

Eos Energy Enterprises, Inc. is accelerating the shift to clean energy with positively ingenious solutions that transform how the world stores power. Our breakthrough Znyth(TM) aqueous zinc battery was designed to overcome the limitations of conventional lithium-ion technology.

What makes EOS a good energy storage solution?

Positively ingenious. Eos is accelerating the shift to clean energy with zinc-powered energy storage solutions. Safe, simple, durable, flexible, and available, our commercially-proven, U.S.-manufactured battery technology overcomes the limitations of conventional lithium-ion in 3- to 12- hour intraday applications.

Is Eos a good company?

EDISON, N.J., May 14, 2024 (GLOBE NEWSWIRE) -- Eos Energy Enterprises, Inc. (NASDAQ: EOSE) ("Eos" or the "Company"), a leading provider of safe, scalable, efficient, and sustainable zinc-based long duration energy storage systems, today announced financial results for the first quarter ended March 31, 2024.

What does Eos do?

At Eos, we are building the future of energy storage--scaling safe, sustainable solutions to meet the world's growing demand for clean energy. As Chief Integrated Supply Chain Officer, Brian leads and oversees company-wide Manufacturing Operations, Supply Chain, Safety and Quality.

How can Francis help EOS change the way we store power?

By advancing zinc-based battery technology and leading R&D efforts at Eos, Francis is a driving force for helping Eos change the way the world stores power. The complex challenges of shifting to clean energy have a simple solution--safe, sustainable storage.

How much energy does EOS generate?

Eos's technology has cumulatively discharged approximately 3 GWh in energy, adding another 400 MWh in just the last three weeks. The majority of discharged energy comes from Gen 2.3 systems operating in the field with over 1.4 GWh discharged year to date.
