

Solarstone, an Estonian producer of building-integrated photovoltaic (BIPV) solar roofs, has opened a 60 MW manufacturing facility in Viljandi, Estonia, to produce a broader range of design and...

Located in Pärnu County, in southwest Estonia, the Kirikme solar park is owned by the Baltic Renewable Energy Platform (BREP), a joint venture set in 2022 between Evecon and Mirova.

Estonia has seen a significant increase in its solar power capacity in 2022, becoming one of the leaders in solar power per capita among EU members. With growing investments and innovative startups, it now aims to be fully green-powered by 2030.

The Rummu PV power plant is the first standalone utility-scale PV plant connected to transmission network in Estonia and the first of two projects in Estonia that Ene has completed. This is a big step forward for Ene, and it marks the ...

Estonian independent power producer (IPP) Sunly has started construction of a 244MW solar PV plant in its home country. Located in the western county of Lääne, the project is expected to begin ...

New photovoltaic tiles from Estonia Estonian startup Solarstone has developed two solar tiles with an efficiency of up to 19.5% and an operating temperature coefficient of -0.41% per C.

Estonia ranks 58th in the world for cumulative solar PV capacity, with 414 total MW's of solar PV installed. Each year Estonia is generating 311 Watts from solar PV per capita (Estonia ranks 13th in the world for solar PV Watts generated per capita).

Estonian solar panel installers - showing companies in Estonia that undertake solar panel installation, including rooftop and standalone solar systems. 45 installers based in Estonia are listed below.

Sunly has started construction of the Risti Solar PV Plant, a 244MW project in Estonia that will become the largest solar park in the Baltics. With a EUR125 million investment, it integrates solar energy, battery storage, and wind power, thereby marking a significant milestone in Estonia's energy transition.
