

# Fenecon battery Eritrea

Where is Fenecon battery Refactory located?

Fenecon has opened its CarBatteryReFactory. The factory in Iggenbach, Lower Bavaria (Germany), produces large-scale stationary storage systems from new, disused electric vehicle batteries. Production of management systems for home storage systems has also been relocated to the new plant.

Where are Fenecon batteries made?

Battery system manufacturer Fenecon has laid the foundation stone for a new production site in Iggenbach, Bavaria. The newly named Carbattery Refactory will cost around 22 million euros in the first stage of expansion. Fenecon has already been producing large container storage units from electric vehicle batteries since 2017.

Will Fenecon increase its capacity with the Carbatteryrefactory?

Fenecon will significantly increase its capacities with the CarBatteryReFactory: The company has been manufacturing large containerised storage units from EV batteries since 2017, but only in small-batch production at its plant in Iggenbach, Germany.

How much does Fenecon battery Refactory cost?

The newly named Carbattery Refactory will cost around 22 million euros in the first stage of expansion. Fenecon has already been producing large container storage units from electric vehicle batteries since 2017. Small series production is currently still taking place at the plant in Iggenbach.

What is a Fenecon modular battery?

The Fenecon modular battery is a product manufactured by Germany's Fenecon. It has a storage capacity ranging from 8 kWh to 22 kWh. The battery is claimed to allow predictive, grid-friendly charging and discharging.

Does Fenecon have a self-learning energy management system?

Fenecon's storage system for residential and commercial applications is equipped with a self-learning energy management system that takes into account power consumption and weather forecasts.

Battery system manufacturer Fenecon has laid the foundation stone for a new production site in Iggenbach, Bavaria. The newly named Carbattery Refactory will cost around 22 million euros in the first stage of ...

If you want to drive the Energy Journey with FENECON, rely on one of our Country Partners: BENNEX, Sellpower, ELINTA and NOE Energy Solutions, with experienced contact persons, provide all necessary information on our battery energy storage systems with the intelligent energy

FENECON ist ein f&#252;hrender Hersteller f&#252;r Stromspeicherl&#246;sungen und bietet Systeme f&#252;r private Haushalte sowie f&#252;r Gewerbe, Industrie, Energieversorger und Fahrzeughersteller. Die L&#246;sungen verwenden das Energiemanagementsystem FEMS auf Basis von OpenEMS und erm&#246;glichen netz- und energiewendedienliches Energiemanagement bis ...

The building's energy management system utilises two large in-house storage units with 1,000 and 1,800 kWh. The energy management system coordinates and optimises all consumers, energy generators (PV system with 500 kWp on the roof and fa&#231;ade surfaces), and large heat pumps.

FENECON develops battery storage systems for household and commercial to grid & industrial energy systems to achieve 100% energy transition. Well over 10,000 storage systems from FENECON are already relieving the energy grid and helping customers in Europe and overseas to significantly save electricity costs and CO2 emissions.
