4.95kWp/11.4kWh Solar Installation in Rotuma. Solar Fiji engineered, design and installed one of the biggest residential Off Grid Solar Power Systems in Rotuma, Fiji. The System consisted of the following equipment: 18 x QCells 275W Solar Panels - total of 4.95kWp; 3 x SimpliPhi 3.8kWh Lithium Ferrous Battery Bank - total of 11.4kWh

Solar power provides businesses with greater energy independence and resilience by reducing their reliance on external energy sources, such as the grid. With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints.

Our wide range of solar panels and chargers provide you with an eco-friendly solution to supply a residential or commercial application with green energy. All solar panels are ideal for remote and isolated locations, saving the cost of running power mains wires.

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.
