

Voltaia has secured the Parc Sable Blanc scheme, which calls for the construction of a 5-MW solar plant with an integrated lithium-ion battery facility of 5 MW/9.3 MWh. The capacity will be installed in the commune of Mana, French Guiana, within the Toco energy storage complex.

This new power plant represents another step forward for the energy transition underway in the territory and will help French Guiana meet its goal of energy self-sufficiency by 2030. The installation will also bring EDF closer to its Solar Plan's objectives of making it one of France's leading players of solar energy with a 30% market share by ...
