Energy emitted by the sun can be converted into electrical energy using solar cells panels. Solar power generation is environmentally friendly, and very promising. As one alternative to replace power plants use steam (oil and coal).

In 2016, Jackery launched its first outdoor portable power stations and, two years later, developed its first portable solar panels. Having introduced solar generators to the great outdoors, Jackery fulfills the power needs of every nature-lover, inspiring them to explore further and seek more extraordinary experiences than before.

We specialize in providing high-quality solar power inverter indonesia for residential and commercial applications. As a leading manufacturer in Indonesia, Zamdon offers reliable and efficient solutions for your solar power needs.

A solar generator is a portable generator that usually works along with solar panels. It typically acts as an automatic backup battery to power your home and your household appliances and/or electronic devices when you run out of electricity due to power outages.
