Germany is leaving the age of fossil fuel behind. In building a sustainable energy future, photovoltaics is going to have an important role. The following summary consists of the most recent facts, figures and findings and shall assist in forming an overall assessment of the photovoltaic expansion in Germany.

Bural Solar Water Heaters are ideal for Mediterranean climates, providing domestic hot water throughout the day. They are easy to install and take up minimal space, making it ideal for any type of property.

In Germany, solar photovoltaic modules are certified according to European Norm (EN) standards. Manufacturers must comply with the "safety class II" norms that certify the electrical safety of photovoltaic modules. The certifications for design qualification and type approval (EN 61215 and EN 61464) have become an industry essential, although ...
