Who is Hanley Energy?

Whether we're developing and delivering new products, deciding on the best solution for a customer's problem, or interviewing candidates - our leadership team and employees live by them every day. Hanley Energy is a globally recognised, award-winning data center solution innovator, headquartered in Ireland with many global operations.

How many offices does Hanley Energy have?

The demand for Hanley Energy's services has led to global growth, and the company now has 12 offices worldwide, including two HQs (Stamullen, Ireland and Virginia, USA), whilst serving customers and partners in 26 different markets.

Who is Keith Arkins Hanley Energy?

Picture: Keith Arkins Hanley Energy is a Stamullen, Co Meath, business that designs bespoke solutions to ensure power availability for large-scale complex operations such as data centres. This involves both functional hardware and the software required to manage and maintain oversight of power usage and availability.

What makes Hanley Energy unique?

Part of the secret is that Hanley Energy had the foresight to look beyond product alone. Their successful proposal also took care of creating training modules and providing operational support to assist in rolling out the solution globally. In short, Hanley Energy didn't just focus on what the customer needed now, but what they would need next.

Is Hanley Energy ethical?

In fact, 85% of the materials currently utilised at Hanley Energy are responsibly sourced and it is envisaged that this figure will reach 100% by the end of 2021. Hanley Energy is built on strong ethical principles and has engaged in projects with planet and people 'betterment' in mind.

Is data centre complacency a problem at Hanley Energy?

The outlook for the next few years remains healthy -- the data centre industry in Ireland is expected to register a CAGR of 14% to 2030 -- but complacency has never had a place at Hanley Energy. Supply chain issues, for example, are a challenge that needs to be addressed.
