

Green camel solar Guyana

Who is Green Camel?

Green Camel has close to two decades of experience as a leader and innovator in the Kenyan solar space, making us one of the top solar companies in Kenya. Our varied expertise includes all major components of solar power systems and solutions. Our aim is to be a solar company in Kenya that evokes trust, confidence and reliability.

Where is Guyana's second mega-scale solar farm located?

The Government of Guyana commissioned its second mega-scale solar farm, the 1.5 MW utility-scale solar PV plant at Bartica, Region Seven (Cuyuni-Mazaruni) in March 2023. At 22 off-grid locations, GEA installed over 163 kWp of solar PV capacity and 800 kWh of battery energy storage.

How is solar energy used in Guyana?

In Guyana, solar energy is used for several purposes, such as drying agricultural produce and irrigation, ICT, and to improve electricity access in rural areas. Under the Hinterland Electrification Programme, over 19,000 solar PV systems had been installed in nearly 200 communities by 2018.

How many solar PV farms will Guyana have?

Guyana Power and Light Inc. (GPL) is preparing plans for three utility-scale solar PV farms totaling 30 MW for the national grid in the long term, as well as a 0.75 MW Solar PV Farm at Wakenaam and a 4 MW Solar PV Farm at Onverwagt in the near future.

Who is Green Camel Investments Ltd?

We even monitor the systems remotely and take up full maintenance for best performance. The Green Camel Investments Ltd was established in 2011 to tackle the energy challenges in East Africa. We design, supply and install solar energy systems for homes, businesses, NGOs and Government institutions.

Is Guyana a good place to install solar PV?

Most locations across Guyana have excellent solar insolation levels and are ideal for solar PV generation. As of 2018, the total installed capacity for Solar PV in Guyana is 4.63 MW, with an estimated annual generation of 7.16 GWh.

Through the use of US\$83.3 million accumulated from Norway to keep Guyana's rainforests intact, the new solar farms promise to add much-needed solar power, an environmentally-friendly source of power, to Guyana's ...

Green Camel Ltd was founded on the principles of making solar energy affordable and accessible for everyone in Kenya. Being in the industry for almost two decades, we have the knowledge, expertise and the resources to come up with specially designed energy solutions for you.

Green camel solar Guyana

As one of the top solar companies in Kenya, we take great pride in helping people reduce their energy bills and take advantage of sustainable solar power solutions. If you're looking for solar ...
