

Green eagle solutions Vatican City

Who is green eagle solutions?

Green Eagle Solutions is an international and rapidly growing tech company that offers SaaS solutions to the renewable energy sector. We have developed ARSOS, a Robotic Process Automation (RPA) based software that autonomously operates and apply one-to-one care to hundreds of assets simultaneously.

Who invested in Green Eagle solutions?

The investment was led by the Energy Transition Tech Fund of A&G, one of Spain's largest private banks, along with commitments from previous investors Kibo Ventures and SET Ventures. Green Eagle Solutions sits at an important junction in the energy system.

What is green eagle Arsos & how does it work?

With Green Eagle's technology, renewable assets contribute to the grid stability, become as reliable as traditional energy sources, and increase their profitability. The company's automation platform, called ARSOS, enables renewable assets to operate 100% autonomously, allowing customers to implement revenue-based operations.

Why should you invest in Green Eagle?

With Green Eagle's technology, renewable assets contribute to grid stability, become as reliable as traditional energy sources, and increase their profitability. With this fresh round of funding, the company is continuing its international expansion.

Will Green Eagle be a major player in the energy transition?

Juan Diego Bernal, Managing Director of A&G Energy Transition Tech Fund, added: "We believe that the technology developed by Green Eagle is unique in the market. We're convinced that Green Eagle will be a major player in the future of the energy transition.

How has green eagle changed over the years?

Since its founding, Green Eagle has grown significantly. ARSOS is now operational with over 15 GW of renewable energy capacity in Spain, which is more than 20% of the total installed capacity in the country, and more than 3 GW abroad.
