

Green rhino energy storage solutions

The Netherlands

The Giga Rhino energy storage system has a capacity of 12 MW and is the most powerful electricity storage project in the Netherlands. With a full year of cycles, CO2 emissions could be reduced by 12,5 million kg and the electricity stored annually in the battery could be compared to the electricity consumption of approximately 5.000 households ...

Green Rhino Energy Solutions specializes in commercial and consumer Energy Storage Solutions based on the patented Lead Crystal Battery technology by Betta Batteries.

We manufacture future proof energy storage systems that are safe, powerful, reliable and cost-effective. Our products are flexible in design offering responsive energy storage solutions...

De Stichting Green Rhino Energy Solutions Europe B.V., geregistreerd bij de Kamer van Koophandel (KvK) onder nummer 75321750, is gevestigd aan de Franciscusweg 14 in Hilversum (postcode 1216 SK). Green Rhino Energy Solutions Europe B.V. richt zich op Telecommunicatie .

Green Rhino Energy Solutions Europe B.V. is a company registered in Netherlands. Info-clipper brings you a complete range of reports and documents featuring legal and financial data, facts, analysis and official information from Dutch Registry.

With the installation of the GIGA Rhino battery in 2020, GIGA Storage has taken the first step towards the application of large-scale energy storage in the Netherlands. GIGA Rhino was set up as a pilot project in collaboration with Wageningen University & Research.

The Green Rhino Energy group develops and manufactures sustainable energy storage systems (ESS) which are produced with unique Crystal® Battery technology, with worldwide commercial roots to market and strong financial backing.

The Rhino battery, with a capacity of 12 MW/7,5 MWh, was the most powerful battery in the Netherlands when it was delivered in 2020. The amount of energy stored annually in the Rhino Battery is comparable to the total electricity consumption of approximately 5.000 households per year: a GIGA battery!

Green Rhino offers reliable and resilient energy storage systems which are designed exclusively for the revolutionary Lead-Crystal battery. The philosophy of Green Rhino is to develop energy storage systems with an homogenous platform.
