Who is GreenGo energy?

GreenGo Energy is the go-to service provider and partner for institutional investors and investment funds that aim to unlock the value in renewable energy. Feel free to contact us about details and specific cases. "We develop green energy solutions of the future together with ambitious investors."

How many GW projects does GreenGo energy have?

GreenGo Energy has more than 27 GW projects in development or construction within solar, wind, BESS and PtX, through our Megaton(TM) Energy Park pipeline. Tier-1 investors from the global renewable energy sector.

Is Namibia a future hub for green hydrogen?

This move underscores our commitment to driving the transition to a sustainable, NetZero future by leveraging Namibia's unique potential as a future hub for green hydrogen. GreenGo Energy and Doral Energy are excited to see the construction of Project M110, a 60 MWp solar park in Urup, Denmark taking place.

Which projects are part of GreenGo energy's megaton project?

The projects are Stovstrup, Hemmet-Sønder Vium, Røhede-Hjortmose and Vennervej, which are all part of GreenGo Energy's Megaton project. We are thrilled to announce our expansion into France, a significant milestone in our mission to drive forward the global energy transition.

How much green energy will Copenhagen generate?

Once operational, the park will have an annual production of 75.5 GWh which is equivalent to green electricity for +18,800 Danish households. It will also help save about 8,800 tons of CO2 annually from the Danish energy production.

Our core business is developing state of the art renewable energy solutions based on large scale solar power, wind power, battery energy storage systems (BESS), and Power-to-X (PtX/P2X)...

GreenGo Energy, a key developer of green hydrogen projects in Africa, has entered into a strategic partnership with Goldwind, one of the world's leading comprehensive renewable energy solution providers. The two companies have signed a Memorandum of Understanding (MoU) to collaborate on renewable en

GreenGo Energy Group is a Danish solar and battery developer with headquarters in Vedbæk. Founded in 2011, the company was established to increase the development of solar energy. Shortly after their foundation, the Danish group were responsible for the construction of the largest rooftop plants in the Nordics at the time.

GreenGo Energy is a full-service solar solution provider. We develop, construct and operate large-scale solar
