

What are the main energy sources in Guinea?

Three primary energy sources make up the energy mix in Guinea: fossil biomass, oil and hydropower. Biomass (firewood and charcoal) makes the largest contribution in primary energy consumption. It is locally produced, while Guinea imports all the petroleum products it needs.

Does Guinea have a green energy policy?

Guinea is pleased to partner with Team Europe to provide green energy to Africa. Lastly, the minister said that since 2010, Guinea has been implementing an ambitious programme of major infrastructure work in the field of renewable energy in order to improve its energy mix.

How does the EU support Guinea?

Under the Neighbourhood, Development and International Cooperation Instrument (NDICI-Global Europe), the EU has allocated EUR 239 million in grant funding to support Guinea for the period from 2021 to 2024. Guinea also benefits from several multi-country EU programmes. Multiannual Indicative Programme 2021-2027 for Guinea - annex (French)

What is the energy potential of Guinea?

Guinea, which is known as "the water tower of Africa" has an energy potential estimated at more than 6,000 MW, most of it in Konkour's basin (World Bank, 2018), of which just about 15% is currently exploited.

Can Guinea become an electricity exporter?

Souapiti (450 MW) started operations in late 2020 and the GoG signed the contracts for the Amaria dam (300 MW) and the Khoumagueli solar park (40 MW), that sum up to 790 MW already. If Guinea wants to electrify its mining sector and become an electricity exporter, additional MW need to be developed and the cost per kWh be minimized.

What is Guinea's energy mix?

Guinea's installed capacity is dominated by hydroelectric and fossil fuel plants. The current government has made diversification of the energy mix a priority so far focused on increasing hydropower's contribution.

Under the Neighbourhood, Development and International Cooperation Instrument (NDICI-Global Europe), the EU has allocated EUR 239 million in grant funding to support Guinea for the period from 2021 to 2024. Guinea also benefits from several multi-country EU programmes. Multiannual Indicative Programme 2021-2027 for Guinea - annex (French)

The financing agreement for 3 linked solar projects totaling 82 MW in Guinea was signed on 22 September, 10 months after the Guinean Minister of Energy signed the concession agreement in the presence of German Chancellor Angela Merkel and 10 African heads of state at the G20 Compact with Africa summit.
