The 40MWac Koumaguéli Solar project will be Guinea's first grid-connected solar photovoltaic plant and is designed to complement power generation at the nearby 75 MW Garafiri hydroelectric plant. The facilities will combine to maximise delivery of renewable energy to ...

L'énergie solaire, l'une des principales énergies renouvelables, se développe dans de nombreux pays africains. En plus d'être une source d'énergie respectueuse de l'environnement, elle est aussi inépuisable. En Guinée, l'énergie solaire est perçue comme une opportunité et une solution afin de permettre à toutes les régions d'avoir une indépendance énergétique.
