

Guyana solar configurator

We offer end-to-end services, including design, supply, installation, and maintenance, backed by experienced professionals in renewable energy for seamless transitions to solar power. Customized Solutions

The SolarCity simulator, developed by IRENA, is an innovative web-based platform designed to support cities in assessing the potential for rooftop solar PV installations. The tool allows users to test policy instruments, incentive schemes, and a system design that could lead to potential economic savings, social-environmental benefits, and ...

The SolarCity simulator combines ultra-high-resolution three-dimensional building footprints with solar irradiation data, computed at one metre (m) grid cells. It is one of a series of web applications developed by the International Renewable Energy Agency (IRENA) as part of the Global Atlas for Renewable Energy.

Solar Direct offers the most flexible off-grid and hybrid Solar PV systems on the Guyana market to meet the budget and needs of our clients. No job is too small or too big for us as we cater for both residential and commercial applications. We currently offer three solar power packages and can also customise systems specifically for you!

We offer complete solar power solutions for homes and businesses across Guyana. Our experienced solar installers provide custom solar systems using reliable, proven solar components from leading brands. We'll assess your power requirements to ensure we supply a solar PV system that will cater for your electricity needs now and in the future.

Solar Direct was established in 2013 and has become a major supplier of quality residential and commercial solar and backup systems at the most affordable prices in Guyana. [More About Us](#) [Get In Touch](#)
