Where does Hamilton Sundstrand have operations?

Hamilton Sundstrand operates overhaul, repair and distribution facilities in Amsterdam, Dijon, Caudebec-en-Caux, Maastricht, and Shannon.

Who is Hamilton Sundstrand?

Hamilton Sundstrand was an American globally active corporation that manufactured and supported aerospace and industrial products for worldwide markets. A subsidiary of United Technologies Corporation, it was headquartered in Windsor Locks, Connecticut. The company was formed from the merger of Hamilton Standard and Sundstrand Corporation in 1999.

What happened to Hamilton Sundstrand?

On 2 January 2008, Hamilton Sundstrand said it would commercialize the concentrated solar power tower technology and corresponding molten salt storage system developed by Rocketdyne through a new entity known as SolarReserve. In 2012, Hamilton Sundstrand was merged with Goodrich Corporation to form UTC Aerospace Systems.

Who owns Hamilton Sundstrand?

The industrial division of Hamilton Sundstrand was sold by United Technologies in July 2012 to The Carlyle Group and BC Partners. In 2013, the four industrial companies became subsidiaries of new parent company Accudyne Industries, Inc.

Does Hamilton Sundstrand have a global workforce?

Hamilton Sundstrand employs nearly a quarter of its total global workforce in Europe. The company now generates 43% of its sales outside of the USA. President David Hess believes this percentage will increase. Hamilton Sundstrand has developed a number of joint ventures and acquired some famous aerospace names, with operations in Europe.

When was Hamilton Sundstrand merged with Rockwell Collins?

In 2018, UTC Aerospace Systems and Rockwell Collins combined to form Collins Aerospace. On June 10, 1999, Hamilton Standard and the Sundstrand Corp. were merged, forming Hamilton Sundstrand. Hamilton Sundstrand traces its roots to the founding of the Sundstrand Corp. in 1905 and Hamilton Standard in 1910.

In addition to being the principal supplier of gas turbine auxiliary power units, Hamilton Sundstrand is now the leader in the development of miniature (less than 100 lbf thrust) jet engines. Auxiliary power units are available to both aircraft manufacturers and support equipment packagers.
