

Renewable power plants operator Voltalia SA on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company ...

Renewable power plants operator Voltalia SA (EPA:VL TSA) on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021.

French energy minister Ségolène Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables...

French renewable power producer Voltalia SA (EPA:VL TSA) has started the construction works on a 5-MW solar farm combined with a 10.6-MWh lithium-ion battery storage unit in French Guiana. Named Sable Blanc, the photovoltaic (PV) plant should be able to generate 7,430 MWh annually, enough to meet the electrical demands of 3,090 people in Western ...

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

Renewable power plants operator Voltalia SA on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021 .

The largest collection of free solar radiation maps. Download maps of GHI, DNI, and PV output power potential for various countries, continents and regions.

French hydrogen technologies developer HDF Energy (EPA: HDF), investment fund Meridiam and petroleum operator SARA have launched construction of a solar park with batteries and 16 MW of electrolyzers for green hydrogen production in French Guiana.

French Guiana's electricity production mainly comes from local renewable energies (64%), compared to 36% from imported fossil fuels. To improve the integration of intermittent renewable energies, solar energy in this study, it is necessary to focus on resource forecasting.

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", combines a

Heylise solar French Guiana

five-megawatt photovoltaic power plant with a lithium-ion battery storage facility with a capacity of 5 megawatts and of 9.3 megawatt-hours.
