Despite challenges, Honduras boasts significant potential for renewable energy development, including abundant solar resources and untapped biomass reserves. By leveraging these resources and implementing targeted regulations to attract investments, Honduras can enhance energy access, drive economic growth, and promote sustainable development.

We are an Energy Solutions company based in Roatan, Honduras. Founded in 1987 by American electrical engineer Charles George (affectionately known as "Vegas"), Vegas Electric has been providing electrical and renewable energy solutions to the Bay Islands for more than 30 years.

About HomeGrid. HomeGrid is a subsidiary of Lithion and prides itself on providing the best energy storage solutions in the industry. Our battery systems are the most powerful and capable solutions available, and we continue to remain on the frontier of innovation to bring the top performing and highest quality products to homes and businesses around the world.

Grid Solutions, a GE Vernova business, is focused on bringing together technologies and expertise to help solve the toughest power system challenges, accelerating the global transition to a more resilient and reliable grid. The future of energy is here. Sustainability.
