

Home power Tunisia

Who produces electricity in Tunisia?

State power utility company STEG controls 92.1% of the country's installed power production capacity and produces 83.5% of the electricity. The remainder is imported from Algeria and Libya as well as produced by Tunisia's only independent power producer (IPP) Carthage Power Company(CPC),a 471-MW combined-cycle power plant.

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

What percentage of Tunisia's electricity is renewable?

In 2022,only 3%of Tunisia's electricity is generated from renewables,including hydroelectric,solar,and wind energy. While STEG continues to resist private investment in the sector,Parliament's 2015 energy law encourages IPPs in renewable energy technologies.

How is power Tunisia funded?

The Power Tunisia Activity is funded through USAIDand made possible by the generosity of the US government and the American People. The author's views expressed on this website do not necessarily reflect the views of the United States Agency for International Development or the United States Government

What is the energy sector in Tunisia?

The sector also offers opportunities for possible Build-Own-Operate (BOO) or Build-Operate-Transfer (BOT) projects. Much of Tunisia's electricity production comes from gas turbines. Major players in this sector include General Electric (USA), Mitsubishi (Japan), Ansaldo (Italy), and Siemens (Germany).

Where does Tunisia's power come from?

The remainder is imported from Algeria and Libya as well as produced by Tunisia's only independent power producer (IPP) Carthage Power Company(CPC),a 471-MW combined-cycle power plant. The CPC plant was officially handed over to STEG in May 2022 ending a 20-year power purchasing agreement between both companies.

Financé par le gouvernement américain, par le biais de l'Agence des Etats-Unis pour le développement international (Usaid), Power Tunisia est un nouveau programme quinquennal pour accompagner la transition verte du secteur privé tunisien.

Power Tunisia is dedicated to providing comprehensive support for both renewable energy and energy efficiency projects. Our mission is to empower the Tunisian private sector in embracing sustainable energy
