

Home solar container product nameplate symbol picture

How many solar panel icons are available?

14,607 solar panel icons are available in various formats such as SVG, PSD, PNG, EPS, and ICON FONT.

What is a solar container?

The Solar container is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

What is the sun2000 nameplate?

Figure 2-7 shows the SUN2000 nameplate, which contains the model information, technical specifications, and compliance symbols. The nameplate figure is for reference only. The actual nameplate prevails. Table 2-3 describes the compliance symbols. The SUN2000 complies with CGC-Solar certification standards.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

Does sun2000 comply with CGC-solar certification standards?

The nameplate figure is for reference only. The actual nameplate prevails. Table 2-3 describes the compliance symbols. The SUN2000 complies with CGC-Solar certification standards. Note: The SUN2000-8KTL, SUN2000-10KTL, and SUN2000-12KTL do not feature. The SUN2000 complies with CE certification standards.

What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.

The text symbols used on the Chinese nameplate should all use the Chinese legal standards, Imported products on the market that require Chinese nameplates should also be handled accordingly.
