

# Hunan yuneng new energy battery material Switzerland

(Yicai Global) March 16 -- Hunan Yuneng New Energy Battery Material, a Chinese supplier of the cathode materials used in lithium iron phosphate batteries, is linking arms with battery giant Contemporary Amperex Technology, which is also one of its shareholders, to develop and produce the next generation of electric car batteries.

The Company's main products include lithium-ion battery cathode materials such as lithium iron phosphate and ternary materials, which are used in the manufacture of lithium-ion batteries such as power batteries and energy storage batteries, and are ultimately used in new energy vehicles, energy storage and other fields.

Hunan Yuneng New Energy Battery Material Co.,Ltd. manufactures and distributes lithium ion battery cathode materials. The Company produces lithium iron phosphates,...

Hunan Yuneng New Energy Battery Materials - Manufacturer of lithium iron phosphate and cathode materials for lithium-ion batteries. Public Company.

Hunan Yuneng New Energy Battery Material Co.,Ltd. is a lithium-ion battery cathode material supplier, engaged in the research, development, production and sales of lithium-ion battery cathode materials. The company's main products include lithium iron phosphate, ternary materials and other lithium-ion battery cathode materials.
